Luis Ortiz

Full-stack web developer with an aptitude to learn things quickly. An idealist at heart who enjoys solving challenges using HTML, CSS, JavaScript, and whichever stack suitable for the job.

EXPERIENCE

General Assembly, *Web Development Immersive Program*
WASHINGTON, DC - AUGUST 2018 - NOVEMBER 2018

- Built an original game entitled *Space Dash* which was built using only HTML, CSS, JS and soon to be refactored using React.js
- Created a full screen instagram-like website entitled *StageBright* where users can create an account and post photos - built with Node, Express, and MongoDB for the server and Handlebars.js for the client and soon to be refactored using Vue.js for the client
- Cooperated with a classmate to make a full-stack application entitled *WOW-ISS* that gives the International Space Station's current location over the earth - built using the MERN stack.

Fairfax County Public Schools, *Long-term Substitute Teacher*
FALLS CHURCH, VA - JUNE 2015 - AUGUST 2018

- Utilized knowledge of Spanish and mathematics to instruct Latino students about subjects such as Algebra and Geometry at Justice High School
- Directed large crowds of students to abide by school regulation and to maintain a respectful school environment

Morrison Healthcare, *Operator*
FALLS CHURCH, VA - JUNE 2013 - MARCH 2018

- Used Electronic Health Record Software *Epic Hyperspace* as well as *Dining-on-Call* POS software to conduct transactions with patients
- Served over 150 patients per day in Oncology, OBGYN, and Labor and Delivery
- Fixed any technical issues both hardware and software arising from the computers, software, printers and other hardware
